

src/EmptyContent.hh

```
graph BT; EC[src/EmptyContent.cpp] --> EC_HH[src/EmptyContent.hh]; ODTD[src/OutputDTDVisitor.cpp] --> EC_HH;
```

A diagram illustrating dependencies. At the top is a gray box labeled 'src/EmptyContent.hh'. Below it are two white boxes: 'src/EmptyContent.cpp' on the left and 'src/OutputDTDVisitor.cpp' on the right. Blue arrows point from each of these bottom boxes up to the 'src/EmptyContent.hh' box, indicating that both source files depend on this header file.

src/EmptyContent.cpp

src/OutputDTDVisitor.cpp
