

src/AnyContent.hh

```
graph BT; AC[src/AnyContent.cpp] --> AH[src/AnyContent.hh]; ODV[src/OutputDTDVisitor.cpp] --> AH;
```

A diagram illustrating the dependencies of the header file `src/AnyContent.hh`. The header file is represented by a gray rectangular box at the top. Below it, two source files are shown in white rectangular boxes: `src/AnyContent.cpp` on the left and `src/OutputDTDVisitor.cpp` on the right. Two blue arrows point from the top of each source file box up to the bottom of the header file box, indicating that both source files include or depend on the header file.

src/AnyContent.cpp

src/OutputDTDVisitor.cpp
